Worcester Area BBS List

This listing only contains BBS from the following towns currently:

Auburn, Boylston, Clinton, Grafton, Holden, Leicester, Millbury, Northboro, Oakham, Oxford, Rutland, Shrewsbury, Spencer, Sterling, West Boylston, Westboro, Worcester.

These are the towns that are local to Worcester, some of these are long distance calls to the people in towns such as Auburn and Shrewsbury, but for the most part all are local calls for most people. Towns such as Charlton which are long distance for Worcester are also long distance for most people in the above mentioned towns, so those towns have been left out. Exceptions can be made for large systems that are non–profit or of interest to large numbers of people (such as Software Creations, home to Apogee software).

Please do not distrbute this list unless this header is kept intact. It is perfered if you distribute the list as the ZIP file that can be downloaded currently from:

Information Society BBS (508)832–7542, Keystone BBS (508)753–3767

That list will be in the form of WORCMMYY.ZIP where MM is the month and YY is the two digit year.

This listing does not contain ADULT ONLY BBSs. If a BBS offers no computer related or general interest files, it will not be listed.

This list and it's format is Copywrite of Charles R. Grosvenor Jr. you are permited to distribute but not to modify this listing.

Thank you for your time and enjoy the list!
